

To our New Zealand Eats friends and family,

We have and will continue to monitor all updates related to Coronavirus (COVID-19) and its impact on our San Diego community. With all that is happening, and as quickly as our conditions change, we will do our very best to keep you well informed of our practices and efforts in response.

First, please know that your health and safety is our priority. During this time, we would like to assure you that we will continue to adhere to the highest levels of cleanliness at all of our restaurants and will follow all current and any new regulations set forth by the San Diego Health Department.

At this time, all of our New Zealand Eats restaurants will remain open during modified business hours and will be offering walk-in/call-in take-out orders and delivery as options to enjoy our food. Each of our locations will have a limited menu available and most will also have delivery available through various 3rd party partners. If you would like curbside pickup please call the location upon arrival and we will bring the order out to you.

Thank you again for all your continued support, and please let us know if you have any questions.
